

Materials Handling Equipment

Colcrete Eurodrill can supply complete Materials Handling Systems to work with any of their mixers. The Material Handling Equipment available from Colcrete Eurodrill includes the following

Powder Silos
Sand and conditioned PFA Hoppers
Belt Conveyors
Mixer Weighing Facilities
Additive Dispensers
Automatic Control

Bunkers, where headroom is limited
Screw Feeds
Weigh Hoppers
Water Batching Systems
Instrumentation

The photograph shows a complete Grouting System installed at Balfour Beatty's Abbey Sewer tunnelling contract at Leicester, comprising:

30 Tonne capacity silo for storing OPC/PFA pre-blended powder.
Screw feed filling weigh hopper.
Automatic batch weighing facility.
Twin 1000 litre paddle mixers.
9 Cubic metres per hour grout pump.
Accelerator storage tank.

The grouting system included provision for adding retarders to the grout as it is mixed, together with dosing equipment for the addition of an accelerator at the point of use.
